

Scientists-farmers interface held under SCSP Programme in Bikaner, Rajasthan

Regional Research Station of ICAR-CIFA, Bathinda today organized a Scientists-Farmers Interface at Pugal, Bikaner, Rajasthan. The programme was organised in collaboration with Krishi Vigyan Kendra, Bikaner-2 and Department of Fisheries, Rajasthan under the auspices of Schedule Caste Sub Plan to disseminate scientific fish farming practices and to discuss about the fish production related problems being encountered by the farmers. Dr Mukesh Kumar Bairwa, Scientist In charge welcomed the delegates and spoke on fish seed rearing and fingerling production in farm ponds (*diggi*) for raising a profitable crop from existing water resources. Dr R K Shivran, Senior Scientist and head, KVK addressed the gathering regarding potential of fish farming in Bikaner region. Mr Irsad Khan, District Fisheries Officer, Suratgarh briefly mentioned about PMMSY scheme and how the farmers can draw advantages. The team of scientists addressed queries of farmers instantly in local language. In this programme 50 farmers from SC community participated.
