

Dr. Hirak Kumar Barman

Principal Scientist

Mob - 09437637314

E-mail - hkbarman68@hotmail.com

Department	Fish Genetics and Biotechnology Division
Institute/ University	Central Institute of Freshwater Aquaculture (<i>Indian Council of Agricultural Research</i>)
Address	Central Institute of Freshwater Aquaculture (<i>Indian Council of Agricultural Research</i>) P.O. - Kausalyaganga, Bhubaneswar 751 002 Odisha, India.
Tel	0674 2465414 (Office) 0674 2382446 (Residence)
Fax	0674 2465407
Date of Birth	1 st February, 1968
Sex	Male

25 Years of dedicated service to the nation

Academic qualifications

1.	PhD (2006) from F/O Medical Sciences, University of Miyazaki, Miyazaki, Japan.
2.	M.Sc in Animal Biotechnology (1992) from NDRI, Karnal, Haryana, India.
3.	B.Sc. in Veterinary Science & Animal Husbandry (1990) from India.

Academic awards	<ul style="list-style-type: none"> • ICAR (India) Junior Research Fellow for M.Sc. degree program. • Japanese Government (Monbukagakusho) Scholarship for PhD degree program. • Best ICAR-CIFA Young Scientist Award 2007. • DBT-CREST Fellowship in ‘Stem Cell Therapy & Regenerative Medicine’.
Post-Doc	<ul style="list-style-type: none"> • Higher research studies in the subject of Biotechnology (including doctoral degree program) from Japan (F/o Medical Sciences, University of Miyazaki, Miyazaki, Japan) under Japanese Govt. (MONBUKAGAKUSHO) Scholarship during April, 2002 to September, 2006: Worked on Bioregulation and eukaryotic chromatin organization using gene targeting technology in chicken DT40 cell line. • DBT-CREST Award in the areas of ‘Stem Cell Therapy and Regenerative Medicine’: Post-Doctoral program from 01.11.2012 to 07.08.2013 at Scribe INRA, Rennes, France.
Research Experiences/ Acheivements	<ul style="list-style-type: none"> • Cell Culture and Molecular Genetics/Genetic Manipulations • First to genetically characterize Indian major carps. • Eukaryotic Chromatin assembly studies via Gene Targeting. • Chromatin Organization: Epigenetic regulations. • Establishment of enriched fish spermatogonial stem cell cultivation and <i>in vitro</i> production of sperms from cultivated spermatogonial cells. • Pioneered in generating Transgenic Indian carp. • Pioneered in establishing Model carp fish using targeted gene editing.
Current Research Interests	<ul style="list-style-type: none"> • Spermatogonial stem cell (SSC) culture, characterization and gene manipulation in <i>Labeo rohita</i>, a commercially important farmed carps. • Fish transgenesis and targeted gene editing. • Identification and characterization of salinity tolerant transcripts in <i>Machrobrachium rosenbergii</i>.
As a major supervisor of Dissertation/Thesis works	<ul style="list-style-type: none"> • M.Sc. (Biotechnology): Awarded degree for six students. • PhD (Biotechnology): Three students awarded degree and five students continuing.
