

Training on “Induced breeding and seed rearing of Indian Major Carps”

ICAR-CIFA, RRC Rahara and Field Station, Kalyani was conducted a training programme on “Induced breeding and seed rearing of Indian Major Carps” during 23-28 July, 2018. The inauguration programme was held on 23.07.2018 at Rahara. The Chief Guest of inaugural programme was Dr. J.N.Saha, Ex-Principal Scientist of ICAR-CIFA. Dr Saha told in his speech that such training programme is very much essential to update the knowledge of the trainees and simultaneously it is also an opportunity for us to know the indigenous technical knowledge (ITK) of the farmers and trainees. He also talked about the importance of quality seed production for better growth performance of the fish. Total fourteen participants all over the country had joined the programme. The training covered both theory and practical aspects of fish breeding and seed rearing. Dr. D.N.Chattopadhyay, Dr.S. Adhikari, Dr. B.N. Paul, and Dr R.N.Mandal were the course Co-ordinators of the programme. Dr. P.P. Chakrabarti, SIC of the centre informed the house about different technologies developed at this centre. The programme was attended by all the Scientists, Technical Staffs, SRFs and other staffs of the centre.
