

Training cum Exposure Visit on Freshwater Aquaculture for SC Farmers

A "Training cum Exposure Visit on Freshwater Aquaculture" programme was conducted by ICAR-CIFA from January 29–31, 2024, at ICAR-CIFA Headquarter in which 6 SC farmers from Bankura district of West Bengal participated. In order to improve productivity, farmers visited farm sites at CIFA campus and observed various carp cultures, interacted with scientists and learnt different aquaculture techniques. The

exchange of ideas and experiences between scientists and practitioners is vital for bridging the gap between scientific knowledge and its practical application in agriculture and aquaculture. On 29th January, 2024 a virtual meeting was organized through Google meet with Dr. Arabind Das. He discussed about breeding and culture techniques of IMC, Catfishes.

Following that, Dr. G. S. Saha and Dr. H. K. De, the SCSP project coordinator, presented certificates to the farmers. Lastly, Dr. G. S. Saha conveyed the vote of thanks, expressing gratitude to all participants and contributors and acknowledging the valuable knowledge and experiences shared during the programme.
